

## Designed for Painting Subcontractors

Painting contractors and professionals know that different materials require different painting techniques. We believe your estimating software should, too. The EDGE® features painting conditions that can combine material and labor choices, so that it automatically knows whether to use a sprayer, roller, or brush and calculate materials and labor rates accordingly. The EDGE Smart Labor® feature can even automatically calculate the extra time needed to move a ladder when the wall height increases.

Produce detailed reports, profit recaps, alternate pricing, ordering, job costing, and more in an instant.

## Exclusive Industry-Leading Features for Takeoff and Estimating. One of the Best Painting Takeoff Systems Available!

The EDGE professional painting estimating software is both robust and powerful, yet so easy to learn that most painting contractors or professional estimators will be up and running in a week or less.

### The EDGE features:

- Complete all-in-one painting takeoff and cost-estimating software solution
- Painting assemblies that combine material and labor choices, so The EDGE automatically knows whether to use a sprayer, roller, or brush and then calculate materials and labor rates accordingly.
- Applying vinyl wall coverings or wallpaper? The EDGE has you covered. Our incremental takeoff allows you to get the most out of your materials costs with a minimum of waste.
- The EDGE Smart Labor feature automatically calculates the extra time needed to move a ladder when the wall height increases.
- Produce detailed reports, profit recaps, alternate pricing, ordering, job costing, and more in an instant.

# The Professional Choice for Takeoff and Construction Estimating Software

## Cloud Based

Your estimates and data will safely and securely reside in the cloud, allowing both estimators and their teams to work together even when you can't get together.

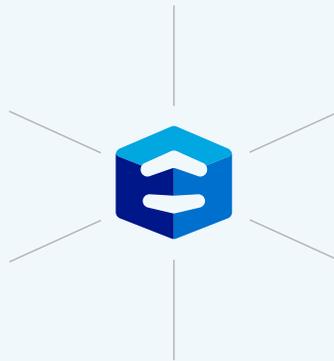

## Analytics and Reporting

Insight is there whenever you need it. Access to key analytics and reporting are always at your fingertips, giving you the tools you need to make more informed decisions.

## Trade-Specific Solutions

The EDGE is completely customized to your trade, and is intelligent enough to use the same language, manufacturers, and measurements that you use in your business.

## Best Customer Service

Expect the industry's absolute best customer service from sales, support, and training staff who have actual experience in your trade. Count on us as part of your team.

## One-on-One Training

Our estimating software is intuitive, but we offer hands-on training and awesome tech support to ensure your business is able to get the most out of it.

## Industry-Leading Features

Dedicated to innovation and streamlining the estimating process, The EDGE is the only solution that offers cutting-edge features like Smart Labor®, and the ability to automatically update an entire project with a click of the mouse.

# Customizable Reports

## 1. Drawing Report

Gain a competitive edge by submitting with every bid! With the visual representation of what was measured and quantities, Owners/General Contractors can see exactly what's in your bid number and have confidence that your price accurately reflects the job. Or, use to transfer knowledge to the field or other departments ensuring everyone is on the same page.
